## **DETAILED ACTION**

### ***Withdrawal of Finality***

1. The finality of the previous Office Action, mailed 6/2/04, is withdrawn. The finality of the Office Action after RCE was improper and should have been made non-final.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach a bolt assembly for a pedal, as claimed. The Barton et al. reference teaches a two part bolt, but does not teach the bolt having an outer diameter less than or equal to the inner diameter of the bearing mounts over the entire length of the bolt. The Barton et al. reference has larger end portions for holding the bolt in place, whereas the applicant's invention allows the bolt to slide out of the mounts since the diameter is never larger than the diameter of the mounts. A search was also done in the hinges area (Classes 16 and 403). No art was found that taught a two-part pivot pin for a pedal having the claimed diameter relationship.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
